I guess you don't understand the law the city doesn't choose the law, nor does the lawyer they hired to defend them choose the law. The law is written you are required by law to give up the information you fuck wad, and I will keep contacting you as long as you have inserted yourself into the case, and nothing will stop me until your law firm is destroyed.

Please stop emailing me and Ms. Salmond about this matter. It will not change the city's mind as to denying the body worn camera recordings you requested. If you do not agree with the city's denial of your request, your remedy is to file a Petition for a Writ of Mandate with the appropriate Superior Court under the Public Records Act. Please do that rather than sending serial type emails to me and others that will not result in any change in the city's position.

Caution: This is an external email and may be malicious. Please take care when clicking links or opening attachments.

This is my multiple attempt at getting the report and body cam video for the incident of 4/21/22.

Assembly Bill 748 will require the release of recordings from body-worn cameras within 45 days of an incident, including if officers fired shots or if a use-of-force causes death or great bodily harm.
