

**The Honorable Julie A. Palafox**

**We have another vindictive bias judge, and all our newspaper keeps getting is transcripts and live appearance where our writers are in attendance as witnesses to this abuse. We send out undercover writers inside the courtroom to witness this behavior.**

**Judge Israel Claustro has clouded judgement, and it is quite apparent he is on the mother's side, does not care for the child at all, and hates the father!**

**1<sup>st</sup> meeting with the father he immediately had an attitude that was apparent and oblivious from the start. Fair and adequate justice was never provided for the father, as we also have obtained the recorded court room audio. Claustro did not allow due process to happen, he muted the father and answered for the father.**

**We feel it is an awesome summary of your awesome career**

**but APPARENTLY the vindictive men beneath you do not see eye to eye with your want for fairness in family law. We believe that the father cannot get a fair trial in your OC Courts System due to the close corrupted relationship the judges and DA's have and the behavior that they have practiced and shown not just to the father but to justice and the Constitution on the United States of America**
